Paper Stockings for Christmas Use.

Stockings are to be hung up this Christmas just as commonly as ever, and among them will be stockings that never have adorned or will adorn a human leg. Brilliant paper hosiery has been devised, and it is warranted to last the day out, says the New York Press. Such stockings are strong enough to bear the weight of one of papa's cheeks, no matter how heavy the figure may be. The newly coined gold eagle will be a most welcome Christmas present. Little red boxes are made to hold those yellow treasures.

Smote Him on the Jaw.

[Nelsonville Buckeye.] Chief of Police Warner arrested a young man from Jobs, yesterday morning, named Wm. Brewer, and as he was taking him into the city prison, he suddenly conceived the idea that he would not go behind the bars. The chief stepped up to push him inside the prison when Brewer swung his right hand and landed upon the chief's jaw putting him down and out. No sooner had he landed on the chief than the young man made a dash for liberty and was speeding westward on Fayette street at a merry clip when the boys in the fire department heard the noise and rushed out after the fleeing man; caught him and returned him to the prison and turned the keys on him.

The blow he struck the police cut a considerable gash on his jaw and wounded his dignity badly.

Brewer faced Mayor Sharp the next morning with fear and trembling. He evidently expected that his conduct would get him a pretty stiff sentence, but when Mayor Sharp gave him the limit—\$100 and costs and six months in the work house—it fairly took his breath.
